WHITEHALL, Mont. (May 1, 2025) – Visionary Broadband has acquired Montana-based broadband provider MTWeb, expanding its service area and enhancing internet access for local communities.

The acquisition expands Visionary’s presence in Whitehall, where it recently completed a fiber build. The deal will bring upgraded internet to Twin Bridges, Pipestone and Cardwell. Plans are in place to boost speeds, enhance reliability and improve service for residents and businesses. Customers in Butte and Rocker will also benefit, as the acquisition helps bring support staff closer to the area.

“With this acquisition, we can bring faster, more reliable internet to even more Montana residents,” said Brian Worthen, CEO of Visionary Broadband. “We’re also thrilled to retain the MTWeb team who bring their local expertise to Visionary.”

MTWeb owner Joel Andrews and two employees, Devon Andrews and Brian Pino, will join Visionary, ensuring a smooth transition.

"We're proud to join Visionary," Andrews said. "Our customers will experience faster speeds, greater reliability and will continue to receive the strong local support from our team."
