

Visionary Broadband Expands High-Speed Fiber Internet in Remote Campbell County

More than 600 homes and businesses to gain 5-gigabit fiber internet

GILLETTE, Wyo. (June 29, 2026) — Hundreds of homes and businesses across Campbell County will soon have access to high-speed fiber internet as Visionary Broadband adds 634 new homes to the company's 5-gigabit coverage area.

Four projects are already underway throughout the county, including sections near Rozet, Eight Mile, Green Valley Estates and Rattle Snake Valley. All areas are scheduled to be completed in July.

The new connections are partially funded by the Wyoming Business Council through the Broadband Equity, Access and Deployment (BEAD) grant program. Visionary is providing matching funds for the BEAD-funded homes and is building fiber to the 192 of those homes out of pocket.

This expansion strengthens Visionary's presence in Campbell County, complementing its existing fiber network in and around Gillette and Wright, Wyoming. The project follows fiber

expansion in Gillette last year, which increased the company's total number of service locations in the area to more than 9,000 homes and businesses.

Visionary, a Gillette-based company, is set to surpass 100,000 fiber connections to homes and businesses across the Rocky Mountain region by the end of 2026.

"This county is our home, and we're committed to ensuring our neighbors have access to reliable high-speed internet," said Brian Worthen, CEO of Visionary Broadband. "Our fiber network contributes to this county's ability to compete on a global scale, and it's rewarding to support businesses and to watch them succeed."

Homes to be serviced by Visionary will have access to future-proof broadband — supporting faster streaming for entertainment, telehealth, remote work and education. Fiber ensures that community members and businesses across Campbell County have access to reliable, high-speed internet with the capacity to serve the community for years.
